

SYNAPPX™ MANAGE

SHARP

One Platform. Total Visibility.
Less IT Burden.

Go from reactive to ready with Synappx Manage, a cloud-based solution from Sharp—built for hybrid, distributed and security-conscious organizations.

Monitor, manage and optimize your supported Sharp copiers, printers and commercial displays from a single platform—so you can stay ahead of issues with real-time fleet visibility while Sharp supports your environment behind the scenes.

! Challenges in a Reactive Environment

- Limited visibility across devices and locations
- Manual updates, troubleshooting and support tasks
- Growing security risks at the device level
- IT teams forced into reactive, day-to-day firefighting

✓ Ready with Synappx Manage

- Centralized platform for visibility and control
- Remote management across your entire fleet
- Active monitoring and issue resolution
- Proactive support from Sharp

What This Means For Your Operations

Synappx Manage helps you spend more time driving your business with centralized visibility, automation, and proactive support from Sharp. It helps reduce IT workload through fewer tickets, faster resolution, and stronger security.

Who Benefits?

Your IT team and Sharp service teams share a single view of your environment. Together, they can resolve issues quicker and deliver better service.

Real-Time Visibility

Dashboard for fleet health, usage trends and status across locations to quickly identify device issues.

Centralized Fleet Control

Manage supported Sharp copiers, printers and commercial displays remotely and at scale from one interface.

Security Enforcement

Support your organization's security policy enforcement with automatic detection and remediation of violations.

Firmware Management

Automatic firmware updates and monitoring of latest firmware to know when updates are available.

Power Management

Reduce energy usage and control device behavior across your fleet with customized power settings and rules.

Billing & Supply Automation

Automated data collection to streamline billing and timely toner order/delivery.
