

Simply Smarter Architecture Firms

Technology for design and development

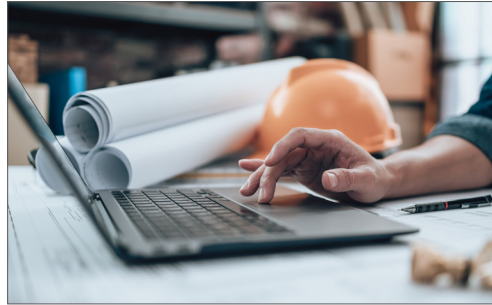

The right technology in an architecture firm can make all the difference. That's why Sharp is committed to providing solutions that enhance design collaboration and boost project efficiency across the entire organization.

Displays and Projectors

From detailed blueprints and design presentations to digital signage, Sharp helps you elevate every aspect of architectural operations, including client meetings, project reviews and collaborative workplaces.

Laptops and Accessories

Equip your team with laptops, monitors and accessories to streamline project management and communication, providing access to design software both on and off site.

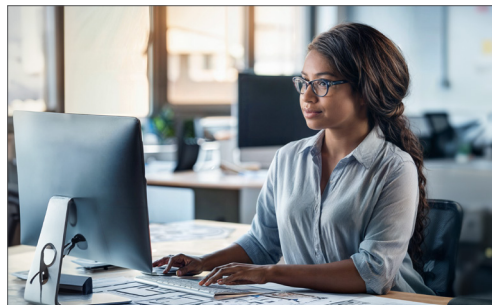

Unified Communications

Sharp's UCaaS solution helps teams connect through Microsoft 365 collaboration tools and delivers a unified platform for voice, chat, video and more.

Copiers and Printers

Print a range of architectural documents such as contracts, blueprints, floor plans and proposals while managing copy, print and scanning expenses.

Digital Files and Workflows

Digitize paperwork and processes such as project records and client files, for secure access.

IT Services and Support

Remote help desk support for troubleshooting and IT services to help protect personnel files, client records and invoices.
