

# Portégé Series

Lightweight has never been so powerful

## Processor

Offering a selection of powerful quad-core 13th Gen Intel® Core™ processors and Intel® Iris® Xe graphics for enhanced visual performance, the Portégé® laptop series delivers the productivity boosting speed, security and enhanced connectivity features demanded by today's business professionals.

## Windows 11 Pro

The Portégé® laptop series features Windows 11 Pro, providing improved data protection and encryption, productivity tools, unparalleled software support and voice control, making it the ideal operating system for the modern workplace.

## Displays

Featuring an energy-efficient, thin-bezel 14-inch (14-inch diagonal) or 13.3-inch (13.3-inch diagonal) Sharp IGZO display, the Portégé® laptop series delivers vibrant visuals and impressive battery life. Dynabook also offers a new Dynamic Privacy Display option that limits viewing by others and an optional multi-touch display.

## Storage

Lightning fast response times with the latest SSD storage and the ability to maximize memory upgrades ensures the Portégé laptop series can handle any task with ease.

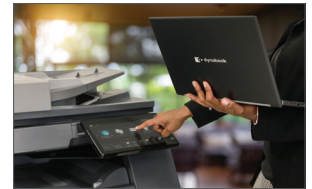

## Docking

The Portégé® laptop series offers a multitude of ports for displays, data sharing and power, while supporting up to three external 4K displays.

## Keyboard

Equipped with a full-sized, backlit keyboard, this laptop series offers comfort and convenience even in dim lighting conditions.

## Unparalleled Productivity

The Portégé laptop series delivers a performance boost and enhanced efficiency afforded by Intel's all-new 10 nm processor architecture. Configurable to up to 32GB of dual-channel memory and reinforced with ultra-fast SSD storage (up to 1TB), Wi-Fi 6 and Thunderbolt™, this line offers enduring performance for making short work of even the most complex tasks.

## Next-Level Connectivity

Beyond its ultrafast USB 4.0 Type-C® ports with Thunderbolt™ functionality, the Portégé laptop series features a mix of full-size ports, including ethernet, HDMI and USB-A (with Sleep & Charge) for seamless, adapter-free wired connectivity.

## Seriously Secure

The Portégé laptop series is among the most secure Windows PCs in the world. Dynabook is the only major laptop brand that writes its own BIOS, providing an incredibly secure foundation. Further bolstering security, it is equipped with face and fingerprint biometric recognition. This laptop helps keep you and your data protected with a webcam cover and optional Dynamic Privacy Display.

## Lighter Than Light, Stronger Than Strong

With a thin and light, mystic blue, magnesium alloy chassis, this laptop is not only stylish but the starting weight is only 904 grams. The Portégé laptop series was engineered to pass MIL-STD-810G standard testing for strength and durability.

## Power For The Workday and Beyond

The Portégé laptop series features a powerful lithium polymer battery to power you through the day. When not in use, Sleep & Charge technology keeps USB ports powered, allowing the laptop to charge smartphones and other accessories.

## +Care Service® Warranty with On-Site

Dynabook's new, premier standard warranty gives customers access to the organization's extensive service and support network for technical phone support, depot repair, carry-in, on-site and customer replaceable parts.
