

SHARP

Building on NEC's heritage...

Sharp is leveraging NEC's impeccable heritage in projectors and ensuring that the industry continues to enjoy innovative, high quality products that will set the standard for future advancements in the industry's pursuit of excellence and cutting-edge technology.

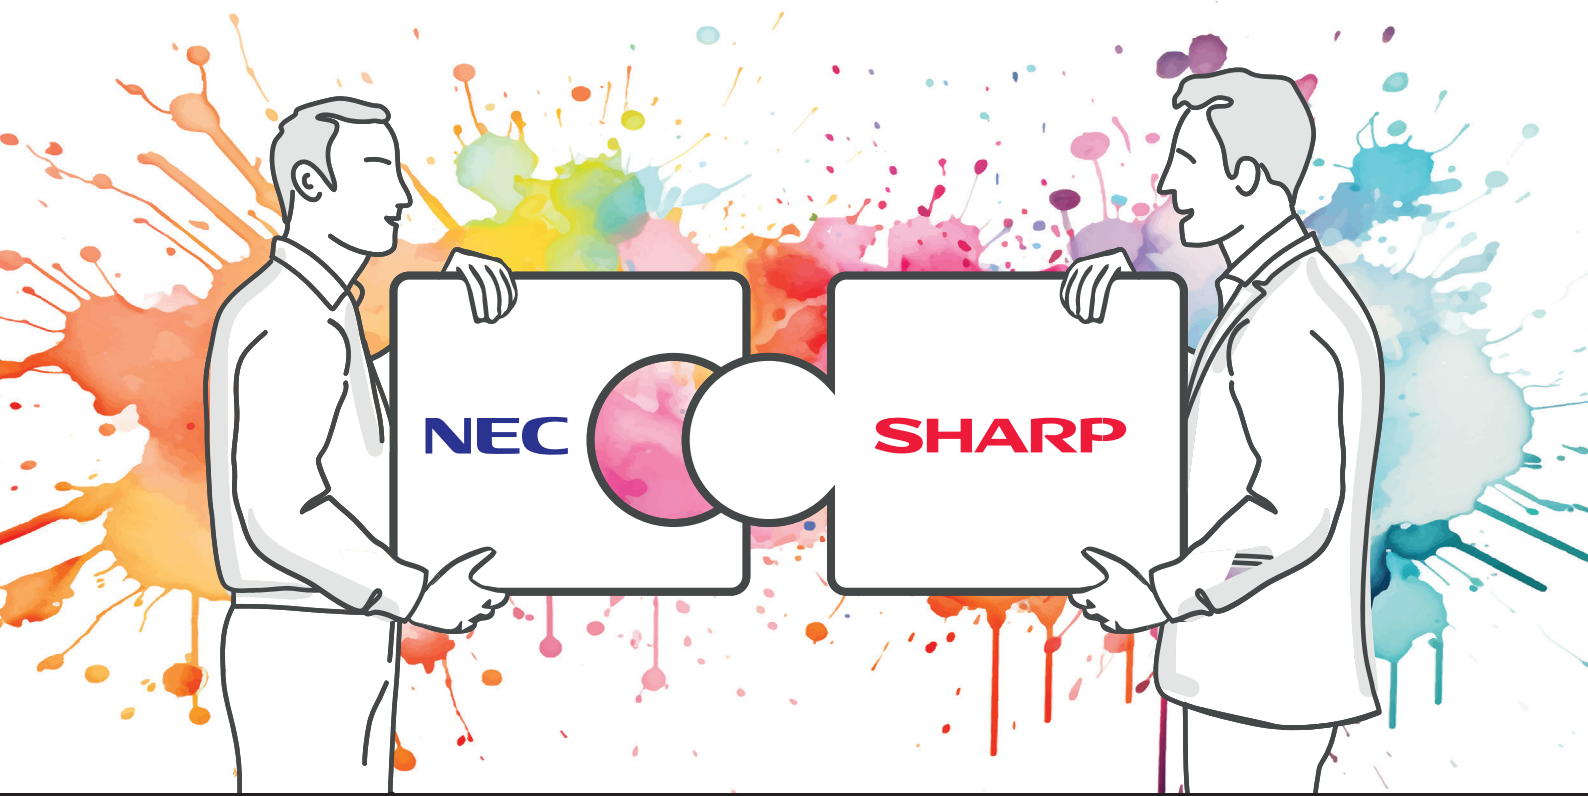

NEC's legacy of high-quality Japanese engineering goes back more than 35 years

This heritage has now driven a renewed Sharp vision focused on delivering the best projectors to the market and sets industry standards, ensuring advanced technology and reliability, crucial for delivering exceptional value and trust to our customers worldwide.

With a renewed Sharp vision

This renewed Sharp vision ushers in an exciting future of innovative, high-end projector series that will be marketed under the Sharp name, using the expertise of the NEC engineering team.

Bringing you the best in engineering, world class innovation, and industry leading customer support

Sharp upholds NEC's tradition of excellence in projector quality and reliability, alongside best-in-class, industry-leading warranties and service offerings, including the InstaCare advanced next business day exchange program or 3-day repair and return for the duration of the warranty.

50 years of combined projector expertise

Sharp offers a dedicated US based technical support team with over 50 years of combined projector expertise, ensuring comprehensive assistance throughout the product life cycle—from engineering and design to technical support, product management, and sales and marketing.
