

### **MX-PE11 FIERY<sup>®</sup> PRINT SERVER**

# High Performance and Superior Image Quality Output for the Sharp Pro Series MX-M1055/MX-M1205 Monochrome Document Systems

## With an MX-PE11 Fiery Server, the Sharp Pro Series Monochrome Document Systems become a powerful integrated solution for managing high-volume CRDs and in-plants.

- Manage jobs and access the full functionality of Fiery® Command WorkStation® integrated on the new 15.4" Sharp touch-screen display
- Produce documents of the highest image quality possible and inspect jobs before they print with the optional Fiery ImageViewer
- · Process large, complex VDP jobs fast to maximize throughput and utilize maximum engine capacity

#### **Improve Productivity**

Based on the latest Fiery FS200 Pro system software, the MX-PE11 Fiery Server delivers performance-boosting features that **shorten turnaround times** and produce fully finished jobs that stand out and differentiate your business.

#### **Intuitive Centralized Print Job Management**

The MX-PE11 Fiery Server utilizes Fiery Command WorkStation as a **centralized solution** for print job management. The intuitive and visual interface enables operators to monitor, prepare and troubleshoot jobs for production from multiple client computers or locally from the Sharp Pro Series touch-screen display.

#### **Produce Exceptional Finished Documents**

The MX-PE11 Fiery Server offers optional make-ready tools to **streamline job submission**. Efficiently perform a wide variety of production tasks and supports imposition of booklets with Fiery VUE and Booklet Maker.

Inspect jobs in the optional Fiery ImageViewer for Black and White software. Use the black curve adjustments to improve tonality and ensure high image quality.

### Add Value with the Power of Variable Data

The MX-PE11 Fiery Server enables customers to save money by **personalizing printing** with built-in, entry-level Fiery FreeForm<sup>™</sup>. The MX-PE11 also supports industry-leading variable data printing (VDP) formats including PPML and the new PDF/VT-1 and 2 formats.

#### Integration with Third Party and Other EFI<sup>™</sup> Solutions

The MX-PE11 Fiery Server uses the Adobe PDF Print Engine (APPE) v3 rendering technology to offer a native end-to-end PDF workflow. The Fiery open platform also supports industry standards and **seamlessly integrates with existing MIS environments**, third-party vendors and other EFI management information systems to run the printing operation with increased efficiency.
