

## GBC® SMARTPUNCH™ PLUS

The GBC SmartPunch Plus supports commonly used binding styles such as Color Coil®, WireBind®, CombBind®, VeloBind®, ProClick® and 3-hole.

New crease and perforation features are enabled quickly and easily with a simple die set change! Enhanced capability for new applications and added value for your customers.

### GBC SmartPunch Plus In-line Punching System for the Pro Series MX-M1056/M1206 Monochrome Document Systems

#### Create Professionally Bound Documents In-House

The GBC SmartPunch Plus system gives you the flexibility to prepare ready-to-bind documents right from the operation panel or print driver. Enhance productivity and reduce costs by combining printing, collating and punching into one convenient step. Need to make on-the-fly changes to presentations, reports, proposals or other projects? With the GBC SmartPunch Plus connected to the Monochrome Pro Series Document Systems, it's as easy as 1-2-3. Two-up punch capability supports popular two-up print workflows. With value-add crease and perforation capability, your customer has expanded sophisticated finishing at the touch of a button. Additionally, with finishing features that include Professional Folding and Post-Sheet Insertion, as well as punching capacity for up to 80 lb. cover and tabs, the Pro Series with a GBC SmartPunch Plus can quickly produce a variety of ready-to-bind professional documents.

#### Maximize Productivity

With the seamless integration provided by the GBC SmartPunch Plus and an MX-M1056/M1206 model, you can keep pace with all of your production needs. The GBC SmartPunch Plus also reduces production time by eliminating the need for off-line manual punching, creasing, and perforating which typically slows down overall productivity. With the GBC SmartPunch Plus, you can gain more control of your production projects and realize cost savings for the jobs that no longer need to be outsourced.

Pro Series MX-M1206 Monochrome Document System shown with GBC SmartPunch Plus.

Available binding styles such as WireBind offer your customers a professionally finished document.

The GBC SmartPunch Plus System makes it easy to produce ready-to-bind documents.
