

Simply Smarter Workplace

Smart technologies simplify our lives at home. We speak to digital assistants and control our environments from our mobile devices. Technology in the workplace should be as responsive, and Sharp can help you get there.

Collaboration

Enhance the way you communicate using state-of-the-art technology.

Collaboration Displays

Conduct intuitive meetings, collaborate and share content on the AQUOS BOARD® interactive display.

Professional Displays

Share your message on displays designed for 24/7 commercial use, available in a wide range of sizes with up to 8K Ultra HD resolution.

Laptops

Dynabook laptops have proprietary BIOS and undergo military grade tests for durability. Light-weight models are ideal for hybrid workers.

Unified Communications

Help your team connect over a unified communications platform for voice, chat, text/SMS, email, fax and video conferencing.

Synappx™ Applications

Help reduce frustrating meeting technology hassles using Synappx applications. Also, share or print information right where it's needed.

Copiers and Printers

Sharp high-performance copiers and printers offer exceptional image quality and security, at home or in the office.

Efficiency

Stay agile by simplifying your print environment and document processes.

Simplified Device Management

Automate meter collection, service alerts and toner replenishment with Machine Intelligence Call Assistance System (MICAS), a free Sharp-engineered service application.

Control Print Usage

Set policies to consume less paper and save on toner with print management software that facilitates billing, accounting, secure print release and activity tracking.

Managed Print Services

A dedicated team to manage your print environment to keep costs low and increase uptime. Know your true cost of printing with a predictable invoice from a single vendor.

Simply Smarter Workplace

Digitization

Easily access documents and data on-demand anytime, anywhere.

Advanced Document Scanning

Streamline digitization with industry-leading content management and file storage apps to help users route and store documents directly into the proper repository.

Advanced Capture Apps

Powerful automation tools for document processing, routing, OCR (optical character recognition), and data capture.

Workflow Automation

Integrate workflow automation applications to digitize and automate existing manual processes to make timely and accurate business decisions anytime, anywhere.

Document Management

Store and manage your digital documents in a cloud-based, centralized system for secure on-demand access.

Security

Stay ahead of malicious intruders with leading edge security.

Security-First Copiers and Printers

Stay ahead of malicious intruders with leading-edge protection on Sharp copiers and printers. Security features can include firmware attack prevention and recovery, whitelisting, confidential printing, user authentication and end-of-lease data erase feature.

Help Desk Support

When a computer issue arises, certified technicians can quickly provide support to get you up and running as fast as possible.

Multi-Layered Security

Safeguard your laptops and PCs, servers and network infrastructure with layered security to help provide protection across all stages of a cyber attack.
