

# Power, Portability, Performance:

## Dynabook's Laptop Trio

Within our Tecra®, Portégé® and Satellite Pro™ product families, we offer a wide-ranging portfolio of laptops from entry-level to premium and traditional clamshell to multifunction convertibles.

### Portégé® Series

The Portégé product line delivers the latest in innovation. It's one of the world's lightest 13.3-inch (13.3-inch diagonal) laptops, featuring award-winning 2-in-1 computing solutions and an extensive collection of Windows Secured-core PCs.

### Tecra® Series

A collection of productivity workhorses, the Tecra family of laptops offer everything a professional user needs to succeed. Featuring powerful processors, robust connectivity and enterprise-grade security, the Tecra portfolio will not disappoint.

### Satellite™ Pro Series

With a modern design and all-around computing capabilities, the Satellite Pro series delivers exceptional value, making it ready for the most demanding tasks required by today's workers and students.
