SHARP®

Workflow Solutions for Healthcare

Increase efficiency, reduce costs and secure your documents.

Sharp multifunction document systems offer workflow solutions to help healthcare providers streamline record processing, integrate with Electronic Healthcare Record Systems and help meet regulatory compliance requirements.

Easily Integrate with Document Management Systems

Sharp multifunction printers (MFPs) integrate with popular enterprise document management systems, such as **GlobalSearch** by **Square 9**. Scan clinical documents with intelligent routing with applications such as **GlobalCapture** also by **Square 9**, as well as **Kofax AutoStore**.

Quickly Scan ID Cards with the Sharp Card-Shot Feature

Save time by scanning both sides of an insurance card in a single pass with the innovative **Card-Shot** feature. Users can print them on a single page or save them in a file for future use.

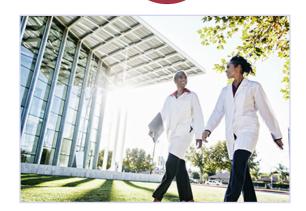

Centrally Managed Printing Helps Lower Costs

Sharp, in coordination with our authorized resellers, offers easy-to-use print management solutions to help administrators lower their costs. Accounting systems such as **PaperCut MF™** deliver seamless integration with Sharp document systems and can enable authentication for secure print release and enforce print rules to prevent excessive costs.

Securely Print Patient data and other Files from Mobile Devices

Easily print files from tablets and smart phones with **Sharpdesk® Mobile**, a free downloadable app. Sharpdesk Mobile works with Confidential Printing, enabling users to send a job to the Sharp MFP and release it only when a PIN is entered.

Securely Print Confidential Files

Multi-layered **security features** built into Sharp MFPs, such as system integrity check, real-time intrusion detection and available antivirus powered by Bitdefender help protect confidential information, and can also help meet and maintain regulatory compliance, such as HIPAA.

Case Study
Healthcare Organization

Business Challenges

A large medical provider with over 38,000 employees needed a secure and economical way to track, print and scan patient records. The provider also wanted to reduce its service and supply expenses.

Technology Solutions

Sharp MFPs and printers performed flawlessly with the organization's internal software as well as integrated PaperCut™ technology, which allows for tracking of print job activity and better security. The total solution included:

- 170 Sharp monochrome MFPs with Papercut™ Technology
- 70 Sharp printers

Proven Results

Overall, the healthcare organization has significantly lowered its cost of printing. Using PaperCut, employees at the healthcare organization have also decreased their printing volume . "The organization is literally saving thousands of dollars per year with the installation of the new Sharp devices," says Chris Telesco, Corporate Enterprise Manager of Les Olson Company.

Easy-to-Use – Sharp MFPs are designed with an intuitive operation panel that delivers a responsive, accurate user experience. The flat touchscreen provides good visibility in bright light and is easy to wipe clean of allergens.

Full Function Capability – All models offer strong multifunction features, including copying, printing, and network scanning. Access to popular cloud services such as Microsoft® Teams, Google Drive™, Dropbox and others are available on most models.

Network Friendly – Sharp MFPs integrate seamlessly with today's modern healthcare environments, support the latest communication and security protocols. Most models also offer optional Bitdefender antivirus protection.

Sharp's user-friendly touchscreen display is customizable for convenience and common among 30+ other models.

Designed to deliver performance and productivity.

- Built-in **retractable keyboard** on most models simplifies email address and subject line entries.

- **Enhanced touchscreen** delivers an accurate, responsive user experience and provides easy access to features.

- **Easy user collaboration** with walk-up access to popular cloud applications on most models such as Microsoft® Teams, Google Drive™, Dropbox and others.

- **Automatic Firmware Updates** help ensure MFP settings and features are always up to date.

- Supports popular mobile technologies, including **Apple® Airprint®** and **Android™ Print Framework.**

- **Compact PDF** scanning feature reduces the file size of scanned color documents, resulting in decreased network traffic and more efficient use of disk and cloud storage.

- With the **Sharpdesk® Mobile** app, users can securely connect to Sharp MFPs via wireless networking from smart phones and tablets, providing a consistent mobile **printing and scanning** experience across the organization.

- Standard **duplexing document feeder** on most models can scan both sides of a document in a single pass, saving time and putting less wear on the machine.

- **Strong multi-layered security** such as system integrity check, intrusion detection and optional Bitdefender antivirus help protect your data.

- **Serverless Print Release** feature available on most models enables users to securely print a job and release it from up to ten Sharp MFPs anywhere in the office environment.

- Supports **Microsoft Universal Print,** enabling users to adapt to this popular cloud service.

- **Sharp Remote Device Manager** simplifies device monitoring and management with event-driven alerts to help maximize uptime.
