

## Sharpdesk Mobile for iOS® and Android™

### Print. Scan. Share.

Embrace Bring Your Own Device (BYOD) with Secure and Productive Mobile Printing and Scanning

Sharpdesk Mobile is a powerful, cutting edge mobile printing and scanning application that allows users to securely connect to supported Sharp MFPs and printers via wireless network from mobile devices. You can provide consistent mobile printing and scanning experience across the organization.

#### Hassle-free Printing

No print driver is required. One application to access your fleet of Sharp MFPs helps maximize productivity of mobile device users. Not only is it quick to discover available MFPs, connecting to a select MFP is easy on your iOS or Android mobile device with the aid of NFC and QR\* codes. Once your mobile device is connected to the MFP, you can select a document, preview and print directly to a supported Sharp MFP.

\*NFC feature supported on Android mobile devices and QR code feature supported on iOS mobile devices.

#### Simplified Document Capture

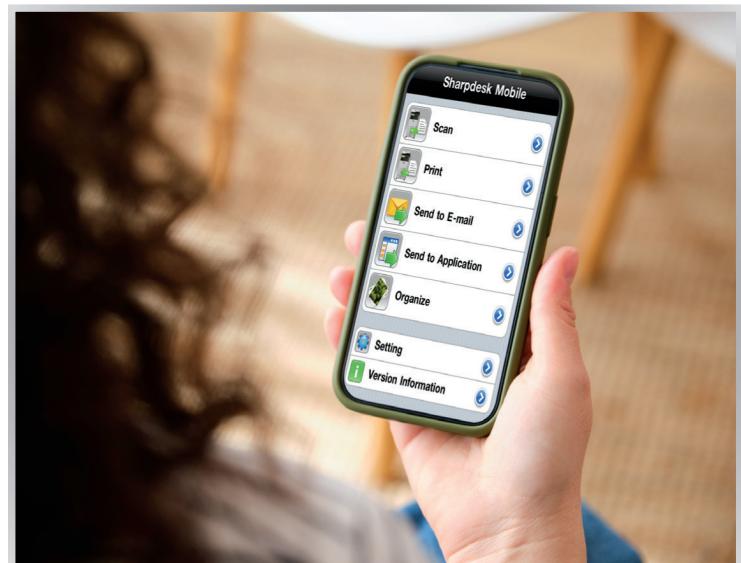

Capture hard-copy documents to your mobile device in PDF format by simply scanning the document from a Sharp MFP. Once the document is captured, you have an option to share the document via an E-mail or other applications.

#### Seamless Collaboration with Other Applications

Sharpdesk Mobile allows seamless file management and sharing with other applications. Users can share stored files via E-mail, or send documents with other applications or print from other applications with a simple swipe and tap.

#### Uncompromised Security

Sharpdesk Mobile is designed to help corporate IT minimize security risks while providing optimum productivity for users. Through security features including user authentication, IT can minimize unwanted access to corporate network resources, while embracing BYOD.
